Address: Alexander, Arkansas, United States

Price: Check with seller

Description:

The BarkCollar is designed to change your dogs barking behavior. If your dog barks excessively, the BarkCollar delivers a vibration or stimulation at a level that is just enough to distract your dog and break the barking cycle.The BarkCollar has 7 adjustable settings from low to high plus a vibration option so you can select a setting appropriate for your dog. The vibration or stimulation gradually increases within the selected setting if the dog continues to bark. When the barking stops, the collar resets.
