Address: Pocatello, Idaho, United States

Price: 39.00 USD

Description:

Olive spoons are a unique and elegant addition to any serving set. They are specifically designed to help you serve olives without any mess. These spoons are crafted with long and slender handles that make it easy to reach into tall jars and pick out individual olives. The spoon itself has small perforations, allowing any excess liquid to drain off and keeping the olives from slipping off the spoon. Inox Artisans offers a range of olive spoons made from high-quality stainless steel that is both durable and easy to clean. With their elegant design and practical function, olive spoons are perfect for entertaining guests or adding a touch of sophistication to your everyday table setting.
