Address: 1580 Boggs Rd NW Suite 500, Duluth, Georgia, United States

Price: Check with seller

Description:

The TK-LHB4 Gen5 LED Linear High Bay Light is an energy-efficient option that can save up to 70% of energy compared to traditional fluorescent tubes. It is versatile and suitable for various applications, such as offices, shopping malls, and retail shops. It comes with 0-10V dimming and different wattage options of 100W, 125W, and 150W. The light is certified with ETL listed and DLC Premium and has a five-year limited warranty. The installation is easy with its suspension and 3/4 NPT Pendant mount, and it comes with various accessories (optional), such as pendant hangers, motion sensors, and an Emergency driver.
