Address: Clifton Park, New York, United States

Price: Check with seller

Description:

Computer Answers at 1602 RT. 9 in Clifton Park is your one and only stop for the new SSD hard drives installed. We have them in stock and waiting to be installed to replace your old mechanical drives. We have 120, 250, 500 GB and 1 TB SSD's at the ready. Wonder what the buzz is about? Like a memory stick, there are no moving parts to an SSD. Rather, information is stored in microchips. Conversely, a hard disk drive uses a mechanical arm with a read/write head to move around and read information from the right location on a storage platter. This difference is what makes SSD so much faster. Call us at 518-383-5101 or stop in from 9 AM to 9 PM daily including Sat. and Sun. Visit our website at www.computeranswers.com....
