Description:

Escalade Platinum with only 49,367 miles. every option including power entry steps etc. Not your normal piece of junk as I have owned it from 2009 and has always been kept in garage and serviced on time by Cadillac dealer. The Escalade is probably the nicest 2008 out there and never been smoked in or used to tow anything, there are no dents dings or scratches on it. I have all books, manuals, spare keys and headphones and remotes for the DVD players. It also has the latest up to date navigation disk fitted.
