Address: Hawarden, Iowa, United States

Price: 10700.00 USD

**Description:** 

More details at: condina83@zoho.com . This is the best vehicle I have ever owned! I purchased it as a certified pre-owned model from a Lexus dealer in April of 2012. It had 37,940 miles when I bought it. It now has 78,190 miles. I took especially great care of this SUV because it was my first luxury vehicle. I had it professionally detailed and waxed twice a year. The interior is in EXCELLENT condition! There is one very small ding just behind the passenger-side headlight. You can see it if you look hard at the very last picture. I never bothered to fix it because it is such a small ding. I think you'll find the exterior is in great shape. All regular maintenance was performed at either a Lexus or Toyota dealer...
