**Description:**

Here is a fine 54 Buick Road Master Convertible. Runs and drives as sweet as it looks. New fuel pump in hand and at this time right rear quarter window does not operate. New tan convertible top, interior, shocks and tires. In my eyes the car is a survivor. If painted - it was a long time ago - believe to be original paint. Original glass and chrome. 20 feet away it looks SUPER. I give the chrome a 9 out of 10. A super rare old car with no rust.
