**Phone:**

**Price: 27000.00 USD**

**Description:**

This very low mileage truck was used in a smoke free environment. There are no dents or marks nor any mechanical problems. (as should be with less than 7000 miles) This rollback has a low profile bed that is ideal for loading sports cars, etc. with low clearance. Rear towbar. LED lighbar and LED lightbar on winch. This rollback has never had a vehicle loaded on it. I paid over \$78000 for this truck new. I bought it to use to haul rebuilt motors from my engine shop to a local customer, and it is no longer needed for that purpose and that is the reason for selling it. This is a chance to pick up a like new rollback at significant savings.
