Description:

I am the 2nd owner of this car, I bought it in 1986 with 1200 miles on it and it has been garaged it's whole life, It has a tiny tear on the passenger seat, a couple scratches on the body, a couple of 911 quirks, sometimes the speedometer sticks, if it does a tap on the glass frees it (odometer is not effected) AC has been up graded but needs a charge. Original Blaupunkt radio does not work, but I listen to the music of the engine. This Car is still tight and goes like stink. IT'S A GOOD ONE
