Phone: 1-509-808-5367

Address: Spokane, Washington, United States

Price: 90.00 USD

Description:

Oil Storage Tank It's an older tank and its sure not a beauty but it does its job and holds the furnace fuel. That helps in part in heating homes, businesses, shops and whatever else it may be used for. For being an older one and being a little rusty it has no holes or leaks. It's a 150 gallon tank with 6 to 10 gallons of furnace oil in tank. It comes together and sold together. If interest come take a look and who ever buys it must pick-up. I have know means of transporting it. Thank you for taking a moment out of your day to take a look. Have a nice day.
