Description:

In 2008 ford and Harley Davidson came up with a winner for sure. Ford agreed to let select dealers order a few low numbered f150's with the well know Saleen Supercharger installed and the necessary components to make this truck have great street performance along with the normal highway driving experience of the other numbered 2008 F150 Harley Davidson Trucks... The engine gained a 150 HP that now from the factory shows 450 HP with 500 lbs torque... I'm a retired ford dealer and had the luxury of owning and driving many of the Harley Davidson Ford trucks produced through the years. This one is my favorite of all, the style, performance and looks has certainly been everyone's favorite due to the interest I rece...
