Description:

One owner. This is my mother's Florida BMW. The mileage says it all. All maintenance done at BMW all record. New tires (less then 2k on them). Brand new BMW recommended battery just for sitting in the garage looking pretty. I can copy and paste all the info on the car but if your interested you probably know more then me. She has to go due to go a moped addition to the garage. I've been asked a few questions. As far as the interior the only wear is to the driverside left bolters. The car has not been detailed before these photo. It's just that clean. I'm also including the maintenance records for the last 4000 miles. Parts and labor are still under warrantee. Feel free keep asking questions.
