Description:

This is hard, but the time has come to sell my pride and joy. I picked up this car last year in LA and its been incredible since. Unfortunately because of the nature of my work I haven't been able to be home and enjoy it much. I have maintained it very well. Always hand washed and detailed by professionals. Always has been serviced by Audi. This car has been babied. NOT A SINGLE SCRATCH ON IT AND THE TIRES ARE STILL PRETTY MUCH NEW! If you have any questions, feel free to reach out. This car is a head turner, it sounds like a monster, and it drives like a tamed race car. It's perfect for a daily driver or for a weekend warrior. 2009 Audi R8 4.2L V8 Quattro Coupe Phantom Black Metallic Exterior over Black Leather...
