Price: 7500.00 USD

Description:

1970 Plymouth Barracuda Gran Coupe convertible: This car was driven into a barn and has sat for the last 22 years. It does NOT currently run. It was stored in a dirt floor barn, and the ground moisture has caused the entire undercarriage to rust. It is 1 of only 381 Barracuda Gran Coupe Convertibles built in 1970, and most likely the ONLY one that was ordered FE5 red on red with a factory Woodgrain Rallye dash with 8k tach (see fender tag). It still has it's numbers matching 318" engine and automatic transmission. This car was ordered FE5 red on red, with a black convertible top, a wood grain Rallye Dash gauge cluster, power top (still works), and the Gran Coupe trim option. This car still retains it's original...
