Description:

Medical Coding and Billing Are you interested in working in health care? Then register for E & S Academy Medical Coding and Billing courses! The responsibility of Medical Coding and Billing is to translate the information from the patient's records to process whether they require any treatments, procedures, diagnoses, and/or medication. Once the information is processed they will be set in an alphanumerical coding that will be sent toward a medical biller. What should I expect in working with Medical Coding and Billing? The job title requires you to keep everything organized with detailed work and to report everything that occurs during the visit of a patient and what they need in a form of coding. Every visit ...
