Description:

You are looking at my Tesla Model S 85. SUPERCHARGING for life for free! Bought it new in Dec of 2014. Never been wrecked and only has wear and tear. The hood has a small rock dent and the drivers side panel has a rub on the corner from getting in and out. Still drives like new! This car HAS auto pilot version 1 and works perfectly. You will get a second set of 20 inch rims and Continental AWS 06 tires. See pics for details. See pic of original sticker for options on this car. Love it but now own a Model X so I must sell this one. Fully tinted windows and dealer installed Tesla center console. Drive motor changed around 37K miles. Second generation sunroof installed by Tesla in 2016. No problems to report with ...
