Description:

I am selling my 2008 GT. I have owned it for 2 years. I purchased it from the Land Rover Dealership in Santa Monica. Its previous owner was actually a celebrity. It has been meticulously maintained and serviced. It is kept right at home in my heated garage all year round and ONLY driven once there is no more road salt leftover from the winter. Some additional features include sport exhaust which sounds unbelievable. As well as, professional performance tuning that literally transforms the car. It is very clean, inside and out. Aside from small discrepancies as expected for a used vehicle, this is in near perfect condition
