Address: Ashland, Ohio, United States

Price: 19500.00 USD

Description:

This is a restored super clean cruiser with both the hard top and the original hood. It is not a numbers matching car but it is a ton of fun and ready to enjoy. It is an easy winner at local cars shows and a head turner when you are just out for a cruise getting thumbs up every time. Everything is in running order except the speedometer which I believe is in the plastic gear in the transmission. Engine runs great,pulls strong and has a great lumpy idle. Transmission, clutch and rear end work as they should with no issues. Brakes fine. Engine has all the right pieces to look like a 365HP engine and pulls like one too. Paint is about 2 years old. Interior has been restored with new carpet and various trim pieces....
