Phone: 1-920-540-9945

Address: Appleton, Wisconsin, United States

Price: 35.00 USD

Description:

Electronic wine chiller is a must-have for wine enthusiasts! Used once. Perfect holiday gift. Simply select your wine from the database of wines and the chiller automatically brings your bottle to the recommended temperature to bring out the best possible palette, bouquet, and wine-drinking experience. Backlit LED screen displays current and target serving temperatures. Quick Chill feature brings your wine to the ideal temperature fast! Count-down timer lets you know when your wine will be ready at a glance. Screen color and audible tone let you know when your wine has reached its ideal drinking temperature. Aluminum reservoir accommodates most wine and champagne bottle sizes. Instruction manual included.
